SKYLUX® Shiny Metal Effect on Plastics without Spray Painting & Plating

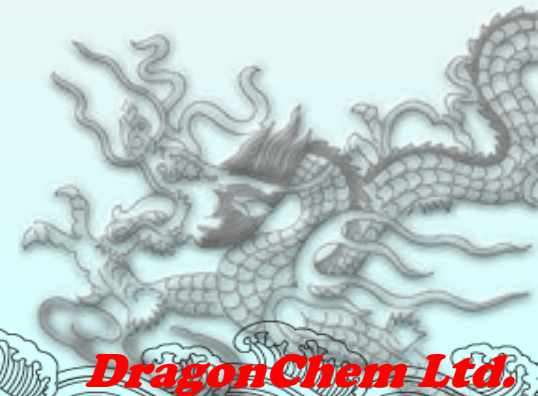

Content :

1. WHAT is SKYLUX® shiny metal effect plastics ?
2. WHAT are the benefits of SKYLUX® shiny metal effect plastics ?
3. WHAT potential applications of SKYLUX® shiny metal effect plastics ?
4. WHAT we have done on SKYLUX® shiny metal effect plastics ?
5. WHAT we can work with you for SKYLUX® shiny metal effect plastics ?
6. WHO you can contact with for SKYLUX® shiny metal effect plastics ?

SKYLUX® Shiny Metal Effect on Plastics without Spray Painting & Plating

1. WHAT is SKYLUX® shiny metal effect plastics ?

- 100% pre-colored compound resin with advanced coloring technology in customized design.

SKYLUX® Shiny Metal Effect on Plastics without Spray Painting & Plating

2. WHAT are the benefits of SKYLUX® shiny metal effect plastics ?

- ✓ Eliminate post-processing of spray painting or plating on end products.
- ✓ Lighter weight to replace metal parts with comparable strength.
- ✓ Available in various resins, likes PP , ABS , PC , ASA , PC/ABS etc...
- ✓ Able to tailor individual properties to meet specific application.
- ✓ Efficiency manufacture processing offering higher productivity rate, with stable & quality output.
- ✓ Integrated cost saving feasible
- ✓ Low carbon footprint concept (Green Environmental protection).
- ✓ Plastic-Steel-Concept , widely apply to latest industrial modernization , especially on Automotive and Aviation industry.
